

### Set Price Breakdown Chart

	SMALLEST									LARGEST
No. of pcs in set	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th
2	0.40	0.60								
3	0.22	0.34	0.44							
4	0.14	0.21	0.29	0.35						
5	0.10	0.15	0.20	0.25	0.30					
6	0.08	0.11	0.15	0.18	0.22	0.26				
7	0.06	0.09	0.11	0.14	0.17	0.20	0.23			
8	0.04	0.07	0.09	0.12	0.14	0.16	0.18	0.20		
9	0.04	0.06	0.07	0.09	0.11	0.13	0.15	0.17	0.18	
10	0.03	0.05	0.06	0.08	0.09	0.11	0.12	0.14	0.15	0.17

For example, if you have a set of three baskets at \$10.00 per set, to get the price of the smallest basket multiply \$10.00 by .22 to get the \$2.20 cost of the smallest size. For the middle size multiply \$10.00 by .34 to get a \$3.40 cost for the middle, and \$10.00 times .44 for the largest size for a cost of \$4.40.

To double-check your calculations, add the three separate prices, \$2.20 plus \$3.40 plus \$4.40 which equals \$10.00, the cost of the entire set.
